GLOSSARY

[View Full Glossary](#)

- First Owner**
 When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.
- Ownership History**
 CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1994 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.
- Title Issued**
 A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

CARFAX DEPENDS ON ITS SOURCES FOR THE ACCURACY AND RELIABILITY OF ITS INFORMATION. THEREFORE, NO RESPONSIBILITY IS ASSUMED BY CARFAX OR ITS AGENTS FOR ERRORS OR OMISSIONS IN THIS REPORT. CARFAX FURTHER EXPRESSLY DISCLAIMS ALL WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. CARFAX®

LEGEND

●●●●	Good
●●●○	Acceptable
●●○○	Marginal
●○○○	Poor
○○○○	Very Poor

The National Highway Traffic Safety Administration (NHTSA) provides 3 different ratings - [full-width frontal crash test](#) , [side impact crash test](#) , and [rollover resistance](#) . The frontal crash test indicates how well the safety features and restraints will protect an occupant in a head-on collision. The side-impact test conveys the chance of a severe chest injury, while the rollover resistance rating estimates the risk of rolling over in a single vehicle crash. Go to [NHTSA](#) to learn more about these results.

[Back to top](#)

IIHS Crash Test Results

IIHS Crash Test Results for the 2006 CHEVROLET CORVETTE are not available in CARFAX Safety & Reliability Ratings.

[Back to top](#)

Low-Speed Damage Repair

Front Crash Description:

Front into flat barrier
Front into angle barrier

Front Crash Cost:

Not tested by IIHS
Not tested by IIHS

Rear Crash Description:

Rear into flat barrier
Rear into pole

Rear Crash Cost:

Not tested by IIHS

Average Damage Per Test

Not tested by IIHS

Insurance Institute for Highway Safety (IIHS) conducts four 5 mph crash tests to assess bumper performance. These results convey how well this 2006 CHEVROLET CORVETTE bumpers will protect the car body from damage in low-speed collisions. Low-speed damage repair costs are obtained from the Insurance Institute for Highway Safety, Highway Loss Data Institute.

[Back to top](#)

Injury, Collision, & Theft Indicators

The Insurance Institute for Highway Safety (IIHS) does not provide injury, collision or theft information for this 2006 CHEVROLET CORVETTE .

Index:

[Injury Index](#)
[Collision Index](#)
[Theft Index](#)

Score:

No data from HLDI
No data from HLDI
No data from HLDI

Rating:

No data from HLDI
No data from HLDI
No data from HLDI

These scores are stated in relative terms, with 100 being the average for all cars in each category. Scores greater than 100 represent higher risk in each category. For example, an injury indicator score of 122 means that a passenger in this model is 22% more likely to be injured in an accident. Injury, collision, and theft indicators are provided by the Insurance Institute for Highway Safety, Highway Loss Data Institute.

Safety Recalls

NHTSA Safety Recalls:

Important: The following recalls were issued for the 2006 CHEVROLET CORVETTE by the National Highway Traffic and Safety Administration (NHTSA). To find out if a specific 2006 CHEVROLET CORVETTE still has open recalls that require repair, CARFAX recommends contacting an [authorized dealership](#) for more information.

Recall date: 10-14-2005

Units potentially affected: 123,592
 NHTSA campaign number: 05V455000
 Defective part or component: STEERING:HYDRAULIC POWER ASSIST:HOSE, PIPING, AND CONNECTIONS
 Description: Certain passenger vehicles may have been built with a power steering hose that is not to specification. Under extreme steering maneuvers, such as turning the steering wheel fully to the left or right while braking, the hose may fracture and leak fluid. If this were to occur, power steering assist would be lost and increased steering effort would be required. On vehicles equipped with hydro-boost power brakes, it could also result in loss of power brake assist and increased braking effort would be required. If the power steering fluid spray were to spray onto hot engine parts, an engine compartment fire could occur. Dealers will inspect the power steering hose(s) for two suspect date codes and replace them if required. The recall began on October 14, 2005. Owners may contact Chevrolet at 1-800-630-2438, GMC at 1-866-996-9463, Buick at 1-866-608-8080, Cadillac at 1-866-982-2339, Isuzu at 1-800-255-6727, or Hummer at 1-800-732-5493.

Recall date: Not reported
 Units potentially affected: 30,793
 NHTSA campaign number: 06V181000
 Defective part or component: STRUCTURE:BODY:ROOF AND PILLARS
 Description: On certain 2005-2006 Chevrolet Corvettes equipped with painted roofs, the adhesive between the roof panel and the frame may separate. If there is a complete separation, the roof panel may detach from the vehicle and it could strike another vehicle and cause injury and property damage. Dealers will inspect vehicles free of charge for potential roof panel-to-frame separation and add the specified adhesive foam or replace the roof with one having adhesive foam. The manufacturer has not yet provided an owner notification schedule. Owners may contact Chevrolet at 1-800-630-2438.

This 2006 CHEVROLET CORVETTE safety recall information was provided by the Insurance Institute for Highway Safety, Highway Data Loss Institute and is derived from the [National Highway Traffic and Safety Administration](#) list of safety recalls. Please call the National Highway Traffic and Safety Administration Auto Safety Hotline at 1-888-DASH-2-DOT (1-888-327-4236) to report safety defects or to obtain information on cars, trucks, child seats, and highway or traffic safety. CARFAX does not review, validate or edit the information and statements provided by the National Highway Traffic and Safety Administration, which do not represent the opinion of CARFAX.

New Car Test Drive Review

Category:

Summary:

Review:

A supercar bargain for the ages.
 By Mitch McCullough, NewCarTestDrive.com

The 2006 Chevrolet Corvette is the best ever. It's easier to live with, easier to drive and more fun than past models. Of course, it should be. More to the point, it offers an excellent performance value when measured against other sports cars, and generates many grins per mile. The new Z06 raises the ante a good \$20,000, but it borders on amazing. Its performance meets or surpasses that from cars that cost many times more. It pushes the envelope to limits hard-core enthusiast drivers wouldn't have imagined just 10 years ago from an off-the-shelf production car, at any price. If you've always wanted a Corvette, this is a great time to get one.

NewCarTestDrive.com editor Mitch McCullough filed this report from Detroit; Jeff Vettrano contributed to this report.

Overview:

The Chevrolet Corvette is the best high-performance value in America. The Corvette delivers supercar performance for the price of a midsize luxury sedan.

And for all its performance, the Corvette does not exact a painful toll on its driver or passenger. Chevrolet has eliminated nearly all the cruder, less desirable traits that characterized Corvettes of yore. The 2006 Corvette could be a reasonably comfortable daily driver in most locales, for at least three of the four seasons.

Known to sports car enthusiasts as the C6 (for sixth generation), the current-generation Corvette was all-new for model year 2005. It's much better than the C5 it replaced, which was a solid sports car in its own right. What makes the C6 better is everything: performance, refinement, ease of operation. It's more comfortable and easier to drive, not only on the road, but also on a race track. It quickly infuses the driver with confidence. It feels like it has more grip than the C5, and it does. It's more agile than before yet more stable. Its new brakes are excellent and, yes, it's faster. If you believe the best time to buy a car is in its second year of production, then the 2006 Corvette is the one to buy.

The standard Corvette coupe and convertible are powered by Chevy's 6.0-liter LS2 V8. This engine sounds great and intoxicates with its acceleration. New for 2006 is an optional six-speed Paddle Shift automatic transmission. With either the manual or automatic, the coupe is awesome, and the convertible is really wonderful. Drop the top on a nice day, turn on the stereo and you'll likely have what psychologists call a peak experience. It's a wonderful feeling and at those moments the Corvette more than justifies its price.

The headline for the 2006 model year is a new, ultra-high performance Z06 model. The Corvette Z06 is a true supercar for a price that's merely expensive, as opposed to insanely expensive. This ultra-high-performance coupe features a new 7.0-liter LS7 V8, high-tech, weight trimming chassis features and upgraded brakes. If any \$66,000 car can be called a bargain, this is the one. The Z06 Corvette accelerates faster, grips better and stops shorter than European sports cars that cost twice as much.
