

Daytona International Speedway  
October 2011  
NARRA Trackday  
With MTI Racing

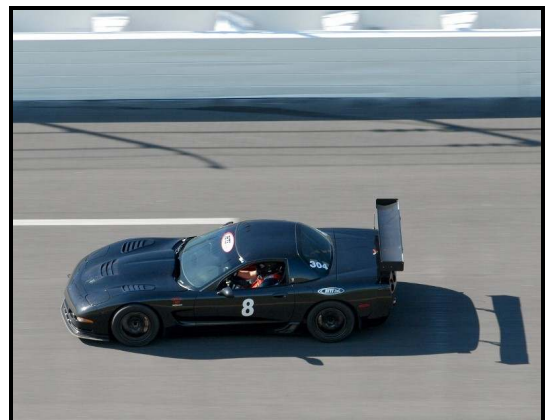

Daytona Beach, Florida. Sunny skies, great weather, and great friends. This was probably the best trackday EVER.

Daytona International Speedway...The Rolex 24hr track... History is made here... A track on most people's "bucket list". Simply entering the track gives you a sense of entering a GRAND Coliseum. You swear you hear trumpet fanfare as you enter through the tunnel, and come out onto the infield paddock. It is almost like entering the Superbowl in slow motion.

Attending with us were customers, Gene, Mike, Randy, Kent, Jeff, and Michael. We rented six NASCAR garages for our Corvettes, Grand-Am GTO, and 5<sup>th</sup> Gen Camaro. The guys brought their wives and made a vacation/trackday out of the weekend. We raced around the track during the day, grilled burgers for lunch, and laughed our heads off at dinner time.

*Jeff's Supercharged Z06 slingshots out of the Horseshoe Turn.*

*Gene's C5 Z06 cracks the sound barrier on the highbanks!*

Each of our customers had road course experience, but nothing could prepare them for driving on 31 degrees of banking. Just imagine being in a fighter plane, leaned over, and pulling back on the stick. Kinda like that. Furthermore, almost 60% of your laptime is spent at 100% Wide Open Throttle! After adjusting to the g-forces, the guys were able to fly at over 175 mph. What a rush!

*Randy*

*Randy and Mike battle over who is #1*

*Mike*

The Z06 Corvettes of Mike and Randy were lapping consistently under the 2 minute mark. Both cars are powered by MTI Racing Stage 2 Extreme engines, with MTI Racing suspension preparation. “Nothing handles like it”, says Randy. “This thing is so well balanced, predictable and responds so well. I’m no Reese Cox, but it makes me look like him. That’s how fast it is!” Equipped with a PPG Transmission and Brembo Brakes, Mike finished 1<sup>st</sup> place in Time Trials group with a blistering 1 minute 56.8 seconds, finishing ahead of the fastest Vipers in the Unlimited class. He was also showcased in a Magazine photo shoot for an upcoming issue of Grassroots Motorsports magazine.

After 3 exhilarating days on the road course, everyone improved their times, had a blast, and went home with a big smile on their face. We definitely have to do this again!

Next event...Road Atlanta!

*Gene and Janice relaxing between sessions!*

*Kevin showing off his stunt bike skills!*

*Kent and Melissa having a great time at Daytona!*

*Kent's Grand-Am GTO on the infield.*

*Lunchtime brings out the carnivores!*

*Jeff added stickers and improved his laptimes.*
