

**Power-window motor: harness grommet, conduit and connector. 1965 Coupe.  
Dave Zuberer**

**Power-window harness grommet  
in door reinforcement panel**

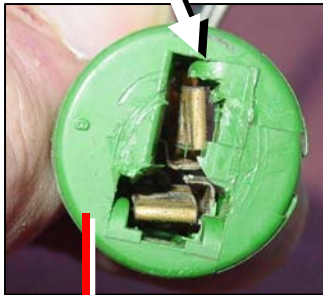

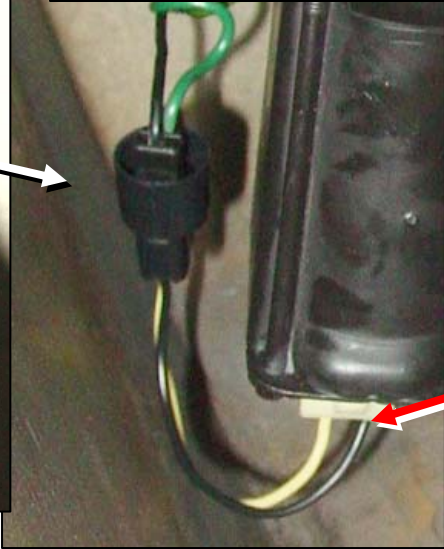

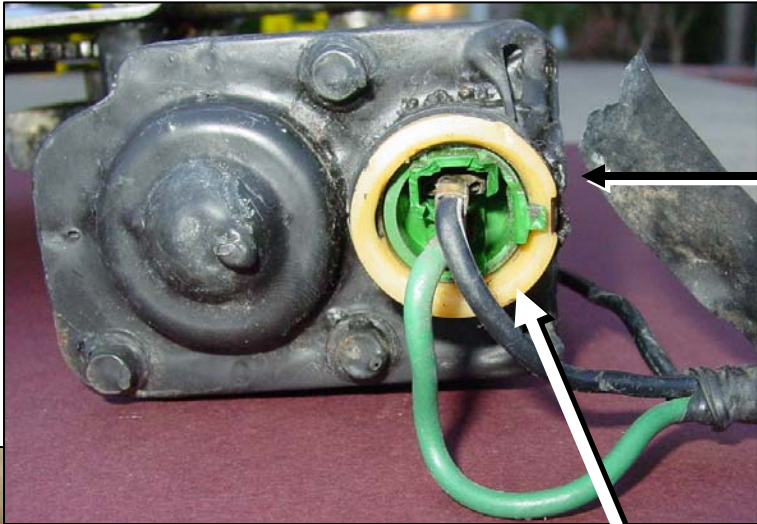

**PW motor and regulator mounted to driver-side door.**

**Motor with harness connector**

**This is a replacement motor showing the conversion harness for the two-prong connector shown at right,**

**Note: vent window assembly has been removed to allow access to regulator and motor**

**Connects here on original motors**
