Typical AIR Pump 7801149 Date Code

This pump (7801149) is a 1973 model pump date coded March 1, 1974.

Figure 11: Typical AIR Pump Date Code-7817872

Typical AIR Pump 7817872 Date Code

This pump (7817872) is a 1979 model pump date coded November 8, 1978.

The pump is mounted by two brackets, the lower painted GM engine color (orange until 1977, blue after 1977) with the upper bracket semi-gloss black. The lower brackets were shipped with the motor and therefore painted same color as the engine. Smallblock lower brackets are cast and stamped with "3923214" until 1976 when part number "14007354" is used. The lower bracket used on big block is stamped steel with no number.
