These rugged Doug's Headers electric exhaust cutout kits allow you to convert to a wide-open, unobstructed exhaust system with the flip of a dash-mounted switch. Doug's electric exhaust cutouts are built to last; they feature full stainless steel construction with a heavy-duty Dayton gear reduction rack and pinion electric drive mechanism. Best of all, these cutouts use a self-cleaning, knife-edge seat for a leakproof seal every time, whether open or closed. Doug's Headers electric exhaust cutouts include a pre-wired harness, a toggle switch, and fuses for an easy installation.

Questions & Answers

[Ask a Product Question](#)

Q: Why such bad reviews for the motors burning out? Has this issue been resolved ?

Asked by TRAVIS on June 20, 2017

A: Thank you for your question. Yes, Doug's did resolve the issue with the actuation motors as of late 2015 so this is no longer an issue.
