

Corvette Parts – Updated 4/27/15

Here are all the parts, tools, and accessories that I have for sale. I just recently sold my 99 Corvette, so I don't really have a use for these items.

There are no warranties – express or implied – for electronics or electronic-based tools; all items are described to the best of my knowledge and are being sold as-is.

The buyer shall pay all actual shipping costs for each item. If multiple items are purchased, they shall be combined into a single shipment where practical.

Payment for items may be made via: cash (for in-person pick-up), check/money order, or PayPal.

Tools:

Kent-Moore Jacking Pucks, part number J-42365 (3 total) – pucks have been used but are in great condition. Price: \$35.00 each

Emergency Brake Caliper – for use in setting the proper clearance of the emergency brake, part number J-21177A (retail price ~\$140.00); purchased new and has never been used. Price: \$75.00

Note: this is not an “original” Kent-Moore tool but is equivalent to the Kent-Moore part number.

Interior Parts:

Armrest Cover – used but in great condition. Retail price is over \$100.00. Price: \$65.00

Door Handle Bezels – these are/were original to my Corvette. Price: \$30.00 for both.

Center Console – this was original to my Corvette; it is in good condition. It has the C5 emblem on it.
Price: \$75.00

Radio Bezel – this was original to my Corvette; it is in good condition, although there is a broken tab where the inside air temperature sensor goes. The broken tab does not affect the fit of the bezel or the inside air temperature sensor close-out panel. Price: \$175.00

Instrument Cluster Bezel – this was original to my Corvette; it is in above-average condition considering the overall age of the car. Price: \$75.00

Steering Column Cover – purchased used; it is in good condition. Price: \$25.00

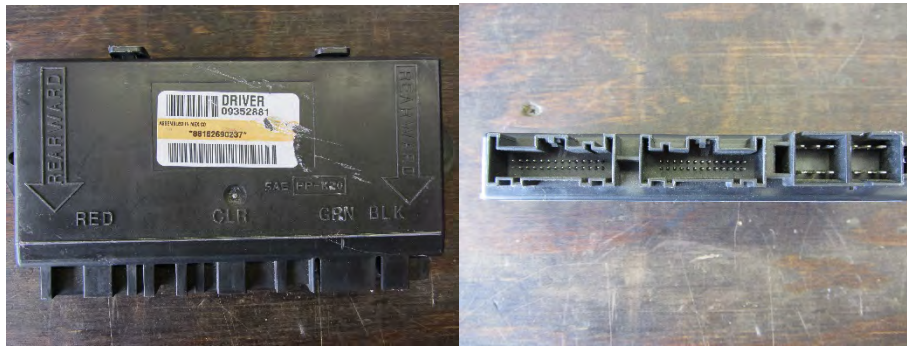

Electronic Components:

Traction Control Switch – this was original to my Corvette; functioned properly prior to removal.

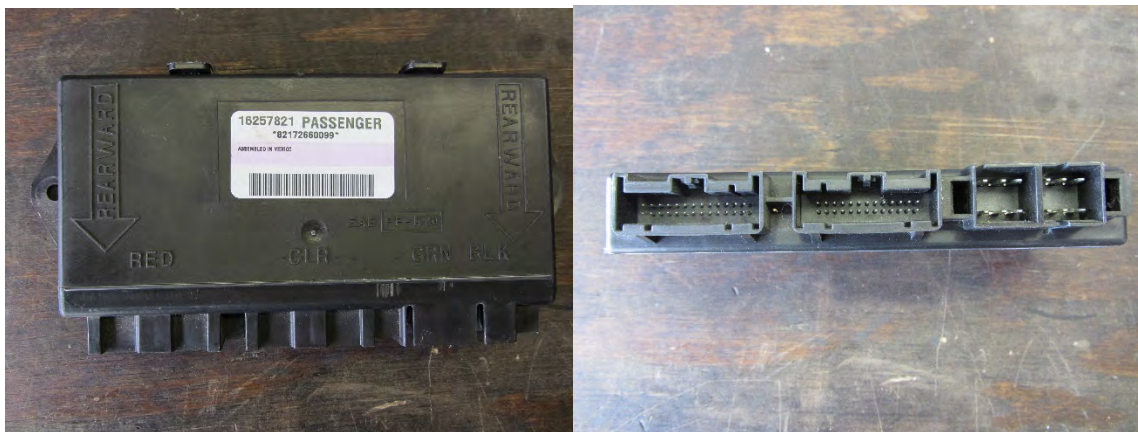

Price: \$50.00

Left Door Control Module – purchased used; should be in good working order. Price: \$125.00

Right Door Control Module – purchased used; should be in good working order. Price: \$125.00

Engine Parts and Accessories

AIR Pump – original to my Corvette; I believe it was functioning prior to removal, but it has not been tested. Includes mounting bolts. Price: \$25.00

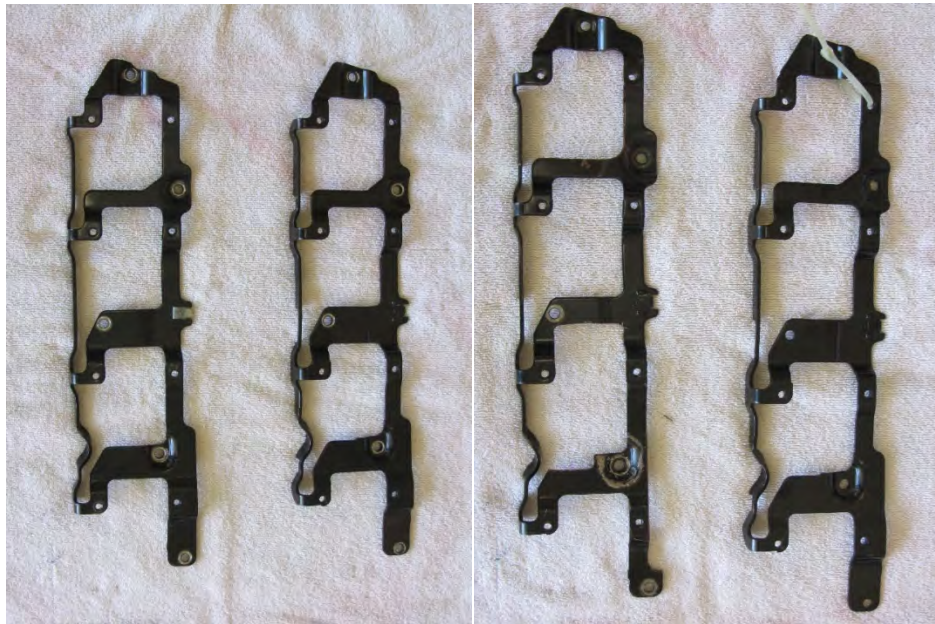

Assorted Fittings – JIC and –AN fittings that were left over from various projects. Most of the –AN fittings are new. The JIC fittings are all used. Selling the assortment as a lot. Price: \$75.00

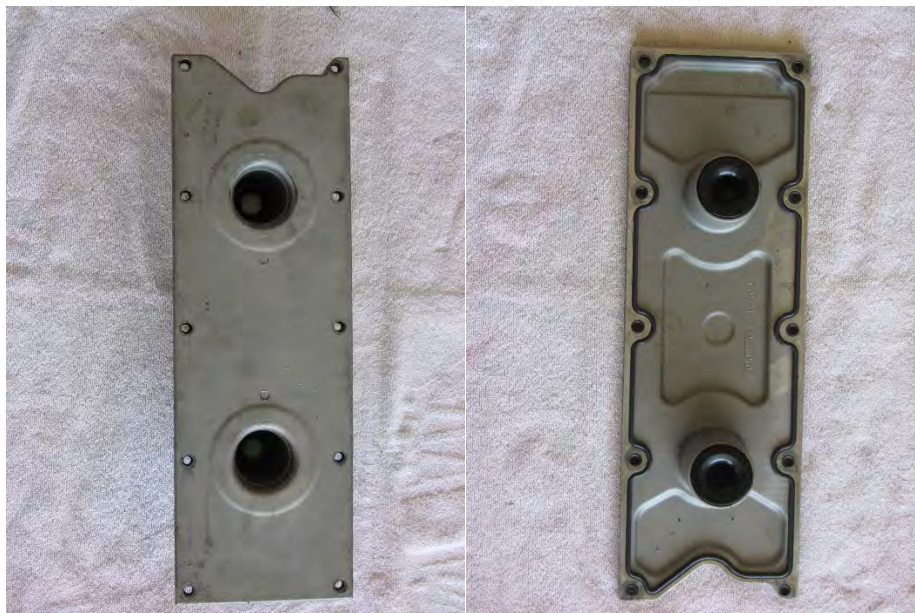

FAST Fuel Rail Kit – part number 146021; for use with LSXR 102mm intake manifold. Includes the supply hose and mounting hardware; also includes the clips for the injectors. Great condition. Price: \$175.00

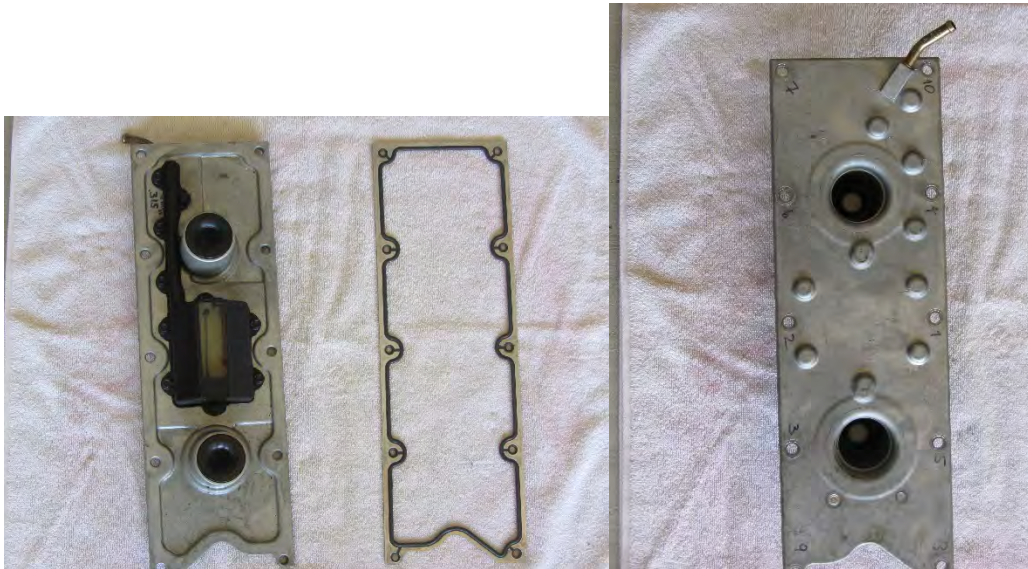

Ignition Coil Brackets – 2 sets of OEM brackets; both sets are used. Price: \$25.00 per set.

Engine Valley Cover – part number 12561107 without the PCV orifice. Used but in good condition, including the gasket. Price: \$40.00 for p/n 12561107

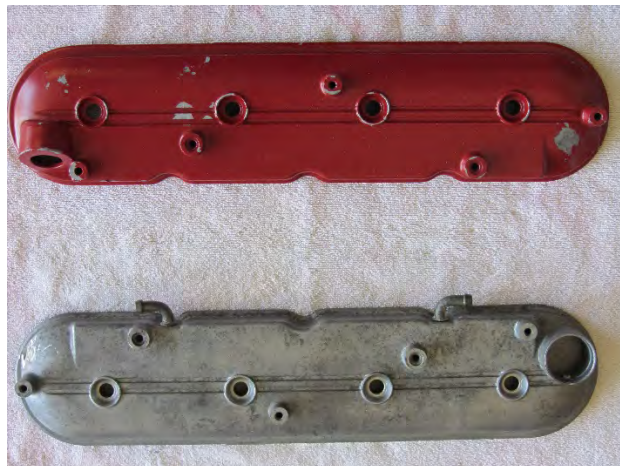

Engine Valley Cover – part number 12568002 with the PCV orifice. Used but in good condition, including the gasket. Price: \$95.00

Oil Filler Neck – OEM cap and elbow; used but in good condition. Price: \$25.00

Valve Covers – used OEM covers; one is painted and the other is bare metal. Price \$25.00

Valve Covers – used OEM painted covers and spacers; the spacer gaskets probably should be replaced. Mounting bolts are also included. Price: \$50.00

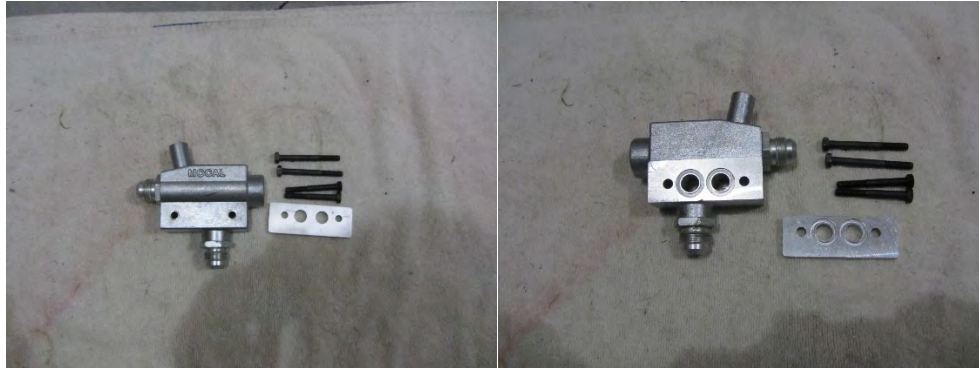

Fuel Rail Covers – red Z06-style OEM; used but in good condition. Price: \$75.00

Valve Covers – used MTI aluminum valve covers with dark red carbon fiber hydrographics. Included with each valve covers is: 4x mounting bolts & grommets, coil bracket, fitting for the oil port, and a gasket (that should still be usable). Brand-new, this package was well over \$1,000. The hydrographics are chipped in one or two spots, but otherwise in very good condition. Price: \$750.00

Oil Cooler Thermostat – MOCAL A0TGM 180-degree oil cooler thermostat, with spacer, and 2 sets of mounting bolts. I ran this on my engine for about 3 years; works great – maintains oil temperature right around 180 under normal cruising. The spacer was professionally-milled to make it a little thinner than originally supplied. This part typically lists for \$175.00 new. Price: \$125.00

Exterior Parts and Accessories

New OEM Headlight Housings – these were leftover from purchasing complete headlight assemblies. Never used, never installed on the car; excellent condition. Price: \$75.00 for the pair

Used OEM Headlight Housings – these were originally installed on my Corvette. Used but in good condition. Price: \$25.00

Headlight Mounting Frame/Bracket (pair) – these were leftover from purchasing complete headlight assemblies. Never used, never installed; excellent condition. Mounting brackets only. Price: \$75.00

Package Deal – both sets of headlight housings and the brackets: \$100.00 non-negotiable

Car Cover – two-tone, indoor/outdoor, fitted car cover. The “weather side” is faded from several years of use. Retails for \$250 new from Mid-America Motorworks. Includes storage bag. Price: \$75.00

Corner Spoiler Pieces – two sets; both are new, never used. Retail for these is \$20.00/each.

Price: \$25.00 a set OR \$40.00 for both sets

OEM Front Brake Cooling Ducts – used but in good condition. Price \$25.00 for the pair

Front Corner Lamps – used OEM item; good condition. Blackout lenses included. Price \$50.00

LED Tail Lights with halo ring – purchased new, installed on my Corvette for less than 2 months. Halo ring is non-functional, but probably could be modified by someone with know-how (Radioflyer, JW Motoring). The lights were in good working order when removed from the car. Price: \$100.00

OEM Center Brake Light – this was the original light from my Corvette; it was functioning properly at the time of removal. Used, good condition; blackout lens included. Price: \$25.00

PIAA Fog Lights – used, in good condition. Lights were functioning properly at the time of removal. Brackets and wiring included. Price: \$50.00

Headlight Bezels – used OEM bezels; good condition but the left-hand bezel is missing the close-out plug. Price: \$25.00 for the set
