Select only the RPO codes you want to compare for the rarity section below.

toggle allcheck alluncheck all

Rarity...

There are **2** 2006 CORVETTE 2 DR vehicles (0.012%) matching your exact options list. There are **10** (0.060%) with *at least* as many options.

My car is really common, why does this indicate that it's rare?

If you parked your car next to one of the hundreds or thousands of similar cars in our database you probably couldn't tell them apart, but that doesn't mean they aren't different.

For example, some may have an RPO listing for the plant in which they were built. If yours was one of only a few that came out of that plant with a given list of options, it would come back as rare. Another car may have all the same options but was built at a different facility and thusly it's considered different.

To check any combination of RPO codes to find how rare your vehicle is based on the most important codes, [click here](#) or make changes to the selection above.

Getting RPO codes

We're digging very deep and this may take MINUTES, not moments. Please be patient.

223 RPO codes offered, checking ALL.
