

The garage door opens. In front of you is your pride and joy. An automotive work of art. It's new and clean, and there isn't a mark on it.

Sure, you're going to take good care of it. You vow to wash and wax it religiously. You'll park far away from others to prevent door dings. You'll keep your distance from gravel trucks on the highway. You'll do your best not to brush up against the curb, and of course you'll drive slowly over speed bumps. But no amount of careful driving (or careful parking) can protect your car from the one thing guaranteed to cause damage every single day.

Stones and other road debris propelled by the vehicles in front of you, as well as bug splatter and bird droppings, inflict damage to the painted surfaces of your car on a daily basis. It will never be factory perfect again.

You could buy touch-up paint and try to fix the damage as it happens, but you'll never get back to the flawless original paint you had when you left the showroom. You could have the damaged area professionally repainted, but besides not being original anymore, it's expensive and the onslaught of damage will simply resume as soon as the car is back on the road.

Luckily, technology has provided an elegant, cutting-edge solution.

XPEL paint protection film works as an **invisible layer of armor** over your car's finish. Our crystal-clear, energy-absorbent polyurethane film is computer cut from a database of precision templates specific to your car, and then safely bonded to the vulnerable painted surfaces offering up to **ten years of guaranteed protection**. XPEL is **100% safely removable on factory paint**, and provides all of the protection you need with none of the peeling, cracking, yellowing, and blistering that can happen with other less-advanced films on the market.

Paint protection films are clear or colored polyurethane films that are applied to vehicles to protect them from scratches, dents, or swirls caused by road debris, rocks, bug droppings, and other environmental elements.

**Drive your car with confidence!**

**MacMulkin Chevrolet Cadillac**

3 Marmon Dr.

Nashua, NH 03060

Phone: (603) 888-1121
