BYB Automotive Lift Models – 100% Made in the USA

1. 7000# Backyard Buddy Standard 4 Post Lift **\$4,595.00**

This top of the line lift is powered by 110V power supply and is perfect for the residential application. The 63" under platform clearance and 13' of runway length offers plenty of room to work on your favorite cars. It also has enough clearance to accommodate almost any two cars for the purpose of double stacking. The quality design and construction are unparalleled in the automotive lift industry.

2. 7000# Backyard Buddy Extended 4 Post Lift **\$4,895.00**

Same as our standard model except it offers 71.5" of under platform clearance and 14 ft. of runway length. This lift is also perfect for that taller mechanic as it lifts the chassis approximately 7 ft. above the ground.

3. 7000# Backyard Buddy 4 Post Over-Height Lift **\$5,395.00**

Now you can double stack virtually anything. This lift offers a full 7 ft. of under platform clearance and offers 16.5 ft. of runway length. There is also 9 ft. of clearance between the posts. This allows for virtually anything from small cars to long wheel base pick-up trucks.

4. 9000# Backyard Buddy 4 Post Lift **\$5,995.00**

Due to superior design, this 9000# lift is identical in operation to our standard model. However, with the use of thicker steel we made this lift long enough, wide enough, and heavy-duty enough to accommodate any vehicle on the road today including a 4-door, 1-ton dually pick-up. It is the only 9000# lift that is rugged enough to remain portable at this heavy capacity. Perfect for your hobby cars as well as your dually pick-up; this lift does it all.

5. 9000# Backyard Buddy 4 Post Over-Height Lift **\$6,895.00**

Same description as 9000# above, except this lift offers a full 7 ft. of under platform clearance.

6. Backyard Buddy 4 Post Boat Trailer Lift

Wide enough to accommodate a 19 ft. boat, while still being able to park your car underneath. **Please call for specific dimensions and pricing.**

BACKYARD BUDDY OPTIONS

EXTENDED WARRANTY

If purchased with a lift	\$229.00
If purchased separately	\$599.00

POWER SUPPLY

	With lift purchase	Alone
1. 110V Power Unit	N/C	\$525.00
2. 220V Power Unit Upgrade	\$215.00	\$695.00
3. 12V Power Unit	\$250.00	\$735.00

PORTABILITY

Casters

7000#	\$425.00
9000#	\$475.00

Gives you the ability to move the lift with or without a vehicle in place.

We use the largest wheel in the industry; a full 8" diameter caster makes portability a snap. Comes in a set of 4.

STORAGE SOLUTION

1. Drip Pans

7000#	\$135.00
9000#	\$195.00

A 4 piece set of galvanized steel (not cheap plastic) drip pans which will prevent top car from leaking on bottom car in storage application.

2. Solid Deck

7000# Standard	\$749.00
7000# Extended	\$799.00
7000# Over-height	\$899.00
9000#	\$979.00

JACKING SYSTEMS

1. Hydraulic Jack Platforms

7000# **\$1695.00**

9000# **\$1995.00**

This one of a kind jacking platform uses the same hydraulic pump as the lift. It allows you to raise the tires off the platforms for brake and suspension work with the push of a button.

2. Rolling Jack Platforms

7000# **\$315.00**

9000# **\$405.00**

Allows vehicle to be raised off the platforms to remove tires for rotation of wheels, brake jobs, suspension work, etc. Customer supplies jack (scissors jack, hydraulic bottle jack, etc.)

3. Sliding Jack Tray

7000# **\$135.00**

9000# **\$200.00**

Recessed version of our rolling jack platform. Makes low to the ground cars a snap, but only accommodates a bottle jack.

4. Air Jack

Model DBT 2 **\$445.00**

4000# capacity.

Collapsed height is 5.75" and fully extended height is 13.75".

Model TBT 3 **\$550.00**

4000# capacity.

Collapsed height is 6.812" and fully extended height is 18".

5. 12" Ramp Extensions **\$399.00**

BACKYARD BUDDY ACCESSORIES

1. BUDDY CADDY **\$289.00**

Now you have a convenient place to store your casters, caster pins, ramps, and wheel chocks.

2. WHEEL CHOCKS **\$39.00**

Keeps car still while you jack it up in the air.

3. CART MOUNT for POWER UNIT **\$104.00**

Available for 110 volt & 220 volt power units. Unit is mounted on a wheeled handcart. There is a quick-disconnect on the hydraulic hose so that the power unit can be stored in a different location, leaving the lift inoperable.

4. ADDITIONAL APPROACH RAMPS

30" Steel Ramps **\$95.00**

36" Steel Ramps **\$125.00**

36" Composite Ramps (Lightweight) **\$350.00**

5. EASY ACCESS CAR DOLLY **\$699.00**

For those of you who don't have enough height for a full size lift, most resort to a drive on ramp. Easy Access is a much better solution and it gives you total access to the under carriage of your vehicle. Contact us for more information about this new addition to our accessories line.
