

Evercoat Product Warranty

All Evercoat products are warranted for twelve (12) months from date of manufacture. Evercoat utilizes the universal batch coding system adapted by the PBEA organization. The following is a depiction of that code:

All products utilize a 6-digit number:

The first number depicts the year:

0 = 2010

1 = 2011

2 = 2012, etc.

The second and third numbers depict the month:

01 = January

02 = February

12 = December, etc.

The last three digits designate the batch number of that given month.

Samples of each batch and each product are retained in our lab for future evaluation should a questions arise.
