I didn't look at the specifics. Am driving and trying to message you. The fronts are 20x10 +35. Rears are 20x12 +46. The offsets make them ideal for the z06 or grandsport. They were on my Stingray but poked out too far for me, so I bought different wheels and tires.

Thanks, how much for wheels only? Can't use the tires as we have to C7Zs. Thanks 🙌

Cool YouTube vid. I like the concept, cars and family CAN go together. In fact they go well

Brand new they are between 1500-2000 depending on where you get them. The tires were kind of a throw in because of the size. Hoping someone would just burn them off in a glorious smoke show. Hahahaha. \$1000 for the wheels plus shipping. Pretty much a steal

thank you Sir. I'll pass. GLWS

I am pretty flexible. I see you're a vendor, maybe we could swap for parts, cash, etc. Up to you.

All I have is kooks headers, xpipe and a tune. This winter I am putting on an Ecs supercharger kit and a meth kit. I've been debating if I should do a ported throttle body and ported intake manifold.

hey brother I can do 850 for wheels n to me you can sell tires for \$300 easy

I will email FedEx ship labels

I'll settle for \$900. Let me know if that works. How does the shipping label work? Just put it on the box?

you interested in any of this stuff? <https://www.edgyvette.com/clearance/>

Alright. If it's for the wife I'll do \$850. Seems like they are going to a good cause

done brother, PayPal, email, and ship from address?

PayPal and email are sbishop818@gmail.com. address is 160 gates rd,
Lebanon ct 06249. My name is Shane Bishop
